

ONLINE FIRE AND EMS TRAINING

A Complete Training & Risk Management Solution for Fire Departments

Online training is the most convenient and cost-effective way to enhance your department's training initiatives. The PreventionLink system is a complete web based solution to maintain compliance, promote safety, reduce losses, and assist with the management and documentation of all firefighter training. Courses can be taken wherever an internet connection is available thus avoiding many logistical issues associated with traditional training. As best practice continues to be further defined and demanded, online training & documentation tools are proving invaluable to many.

The Global Risk Innovations / TargetSafety Online Services Include:

NFPA 1001 Library:

Building Construction Fire Prevention & Education
Fire Behaviour Fire Streams
Fire Control Firefighter Orientation & Safety
