

A Complete Training & Risk Management Solution for Water Industry Professionals

Using PreventionLink™, municipal and entrepreneurial water and wastewater operators can efficiently maintain their Operator's license online! PreventionLink™ offers a comprehensive catalog of online courses that mitigate risk and fulfill required continuing education training. To complement the Water Operator e-learning courses, organizations can purchase a PreventionLink system to achieve maximum effectiveness.

The Global Risk Innovations / TargetSafety Online Services Include:

Features

- **A customized website** that integrates risk management applications and training activities to provide a complete and cost effective solution.
- **Administrative tools** that allow for the management and tracking of all training and compliance activities.
- **Create training programs** for the entire year or create customized training programs for different employee groups (department, jobsite, shift, etc.)
- **A complete course catalog** of Water Industry specific training courses to include Environmental, Occupational Health, Safety, and HR topics.
- **Some water and wastewater courses are approved** as Continuing Education Units (CEU) in the provinces of Ontario and Nova Scotia.
- **Approved Ontario Water and Wastewater Certification Office Courses (OWWCO) Carry a .1 CEU Credit**

Benefits

- Our risk management service works for all your departments; management, administrative, maintenance, operations, as well as laboratory.
- As a result of our commitment to the Water/Wastewater Industry, you can expect exemplary customer service in addition to technology developed to meet your specific needs.
- Your personnel may access our system and take courses 24/7/365.
- Our record keeping tracks all activities automatically, so data input is obsolete!
- Logistical issues are significantly decreased resulting in substantial financial savings for your Water Agency and real value for you and your organization.
